One in a Million Place Value Pack

If you are looking for a fun, hands-on approach to teaching place value, look no further. The *One in a Million Place Value Pack* will get your children exploring big numbers through the use of colorful place value cards, color-coordinated mats, and fun activities.

With this set, your children will be able to practice building, reading, and comparing multi-digit numbers from 1 to 9,999,999. They'll learn to build numbers within a set of parameters by being Carpenters in the Build It activity. They'll also create large and small multi-digit numbers with the Build a Skyscraper and Build a House games. All the required pieces and cards for these activities are included in the pack.

This handy set also includes black and white versions of the place value cards and mats for your convenience so that you can save ink and print them on colored card stock if desired.
