Introduction

Thank you for downloading *Fishing for Letters*. I hope it helps the children you work with learn the letters of the alphabet.

Directions:
Print pages on card stock or paper. Color if desired. Cut out fish. Laminate for durability. Attach a paper clip to the mouth of each fish.
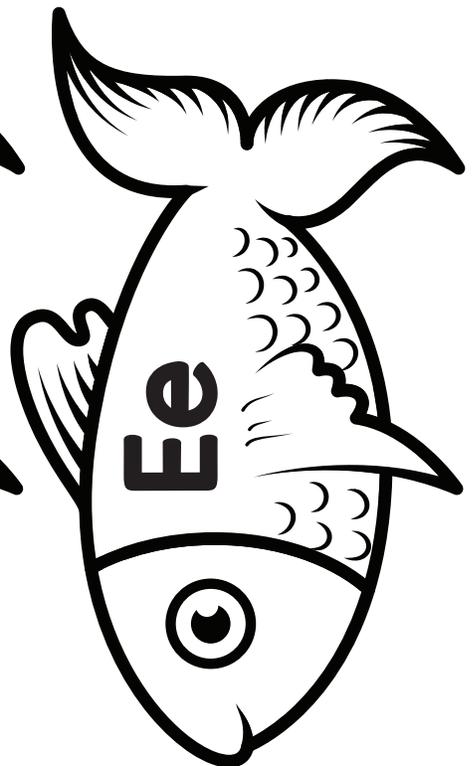

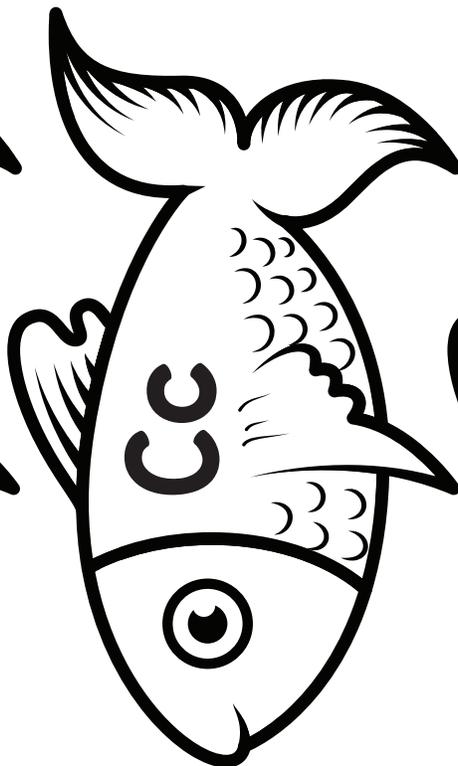

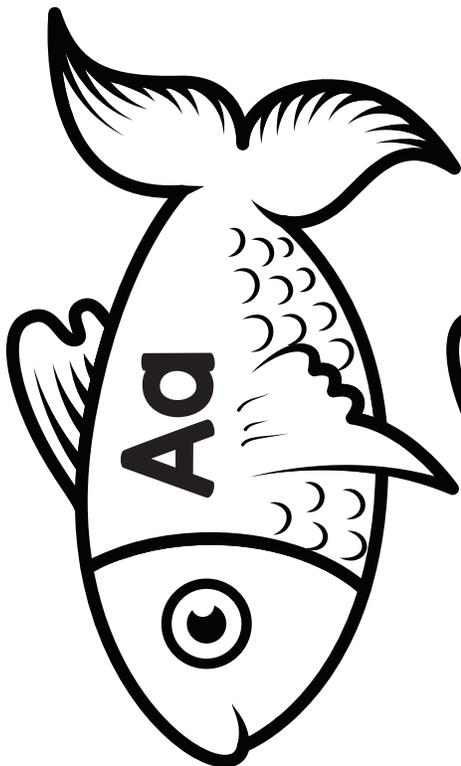

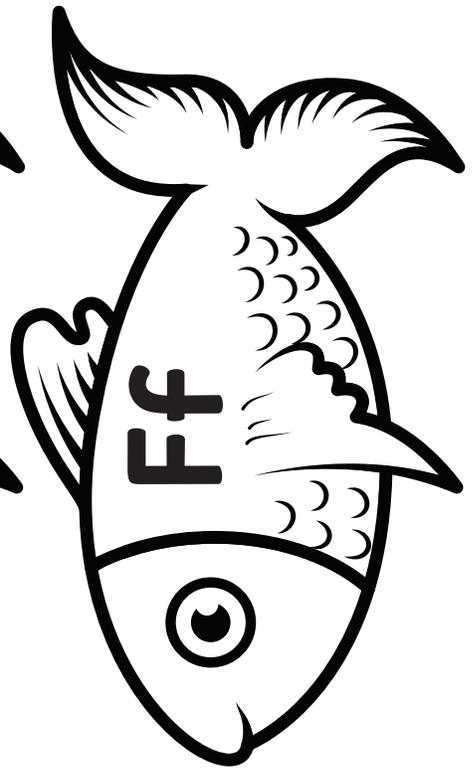

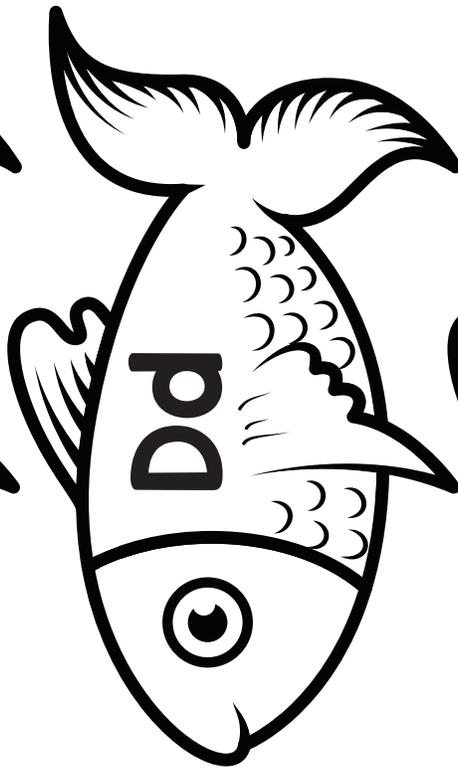

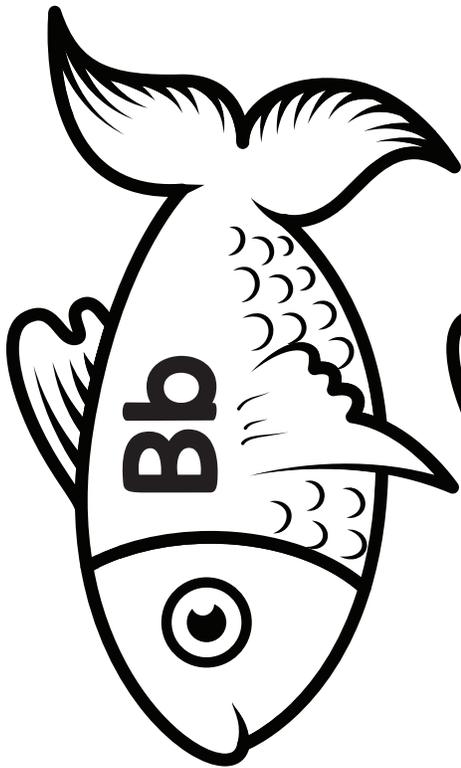

Tie or tape string to a stick or dowel to make a fishing pole. Tie or tape a magnet to the other end of the string.

Put all of the fish in a "Fish Pond." This can be an open area or large container such as a bucket or tub. Have the child fish for the letters by dipping the magnet end of the string into the pond.
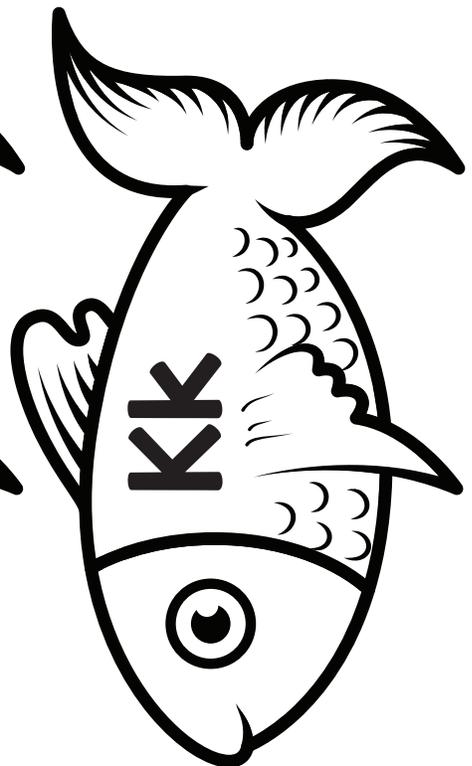

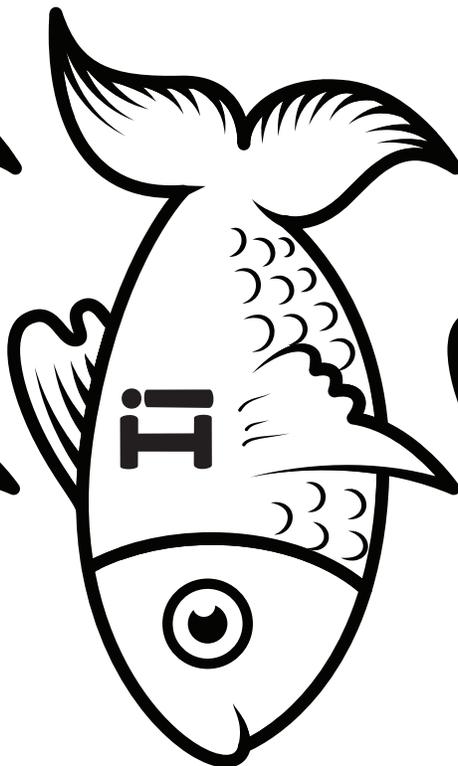

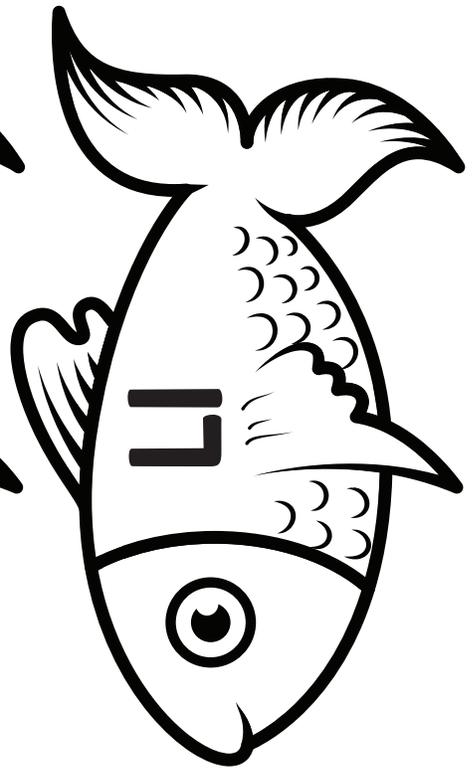

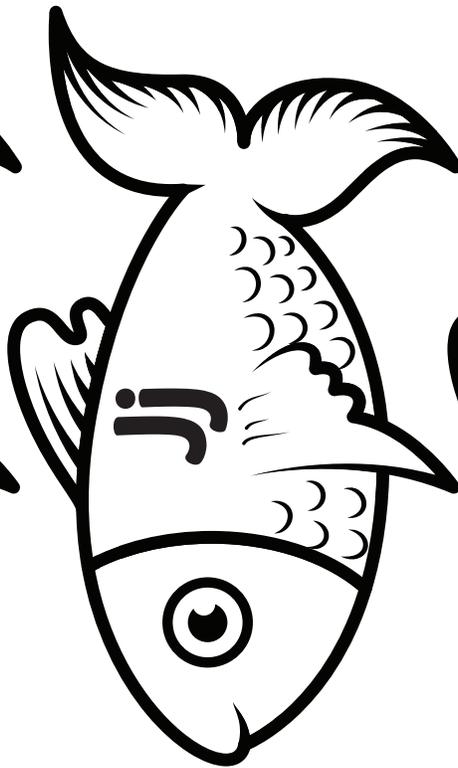

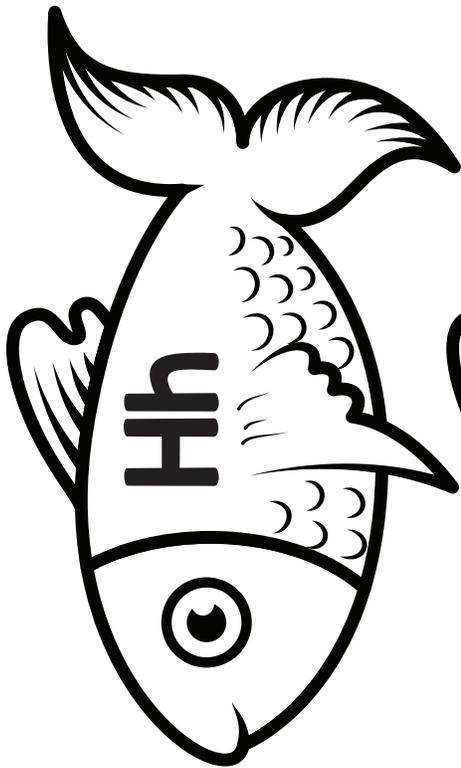

For letter recognition practice, have the child tell you the letter names on the fish as he catches them or challenge him to catch a fish with a specific letter on it. This can be done with foreign language letters as well. A blank fish has been included for you to write letters that don't appear in the English language.

For phonics practice, have the child tell you the letter sound on each fish he catches or tell him a letter sound and have him catch that fish.
